

V3Travel. The new business of travel.

v:travel™

## V3Travel System

### Features for Online Distributors

If your business is based on offering customers travel product availability and booking online then the V3Travel System delivers the advantages of real time and not allocated product, the ability for you to set the rules and integration features you have been looking for.

### Real-Time Advantages

Forget the hassles of using ad hoc incomplete solutions. Thanks to the V3Travel System™ you get one single point of integration of a real-time inventory from multiple reservation and booking systems.

You now have unprecedented access to multiple sources of inventory, from one online location.

It's time to take control and:

- Set your own discreet distribution commission
- Integrate and gain direct access to the Provider base

This document includes information that is confidential to Vcubed Pty Limited and eviivo Limited and that is not in the public domain. It is supplied solely for the purpose of assisting You to evaluate the V3Travel System and the potential for employing the V3Travel System in connection with Your own business requirements. It must not be used in any other manner or for any other purpose. eviivo owns intellectual property rights including but not limited to copyright in the V3Travel System including the software, documentation, business logic, business schemer, specifications and diagrams for the V3Travel System and any use of this document is strictly subject to those intellectual property rights and all relevant laws and treaties that protect those rights.

- View and enable (or block) Providers from being distributed
- Access various management reports and export transaction logs
- Choose your integration level: from the basic booking button approach through to the total V3Travel System™
- Choose your payment models: funds can either be deposited directly into the Provider's account (Provider-direct booking) or the funds will be kept by the Distributor (On account)
- Depending on your choice of payment model, the fees are automatically direct debited and then provided to the sales chain (direct booking), or Distribution commissions are handled externally in the Distributor's payment systems (on account)

## Real Time Integration

Finally, you don't have to put up with white-label 'hand off' or 'affiliate' business models based on allocated product that simply is second best.

V3Travel allows integration options that offer you live and not allocated product and allow you to take control of your business model.

Basic Integration enables:

- A simple book button to provider listings
- Payment model direct to Provider
- Ability to brand the V3-hosted booking pages

Basic Integration suits Distributors with static content, content database, or no content.

Intermediate Integration enables:

- All facilities of the Basic Integration
- Ability for Distributors to dynamically determine if Providers are opted in to the channel (allows Providers to be highlighted before the consumer selects to view the Product)

Advanced Integration enables:

- All facilities of the Moderate Integration
- Ability for Distributors to dynamically search for Provider product availability from their search forms thus greatly enhancing the consumer experience
- 'Deep linking' consumer into the booking process
- Full Integration enables:
- Distributors to fully control the consumers' experience

Can you really afford not to take advantage of the breakthrough V3Travel System?
